## 关于展会 analytica China

自2002年首次登陆中国以来，慕尼黑上海分析生化展 (analytica China) 已成为亚洲乃至全球规模庞大的分析、实验室技术、诊断和生化技术领域的专业博览会和推广平台。同期举办的analytica China国际研讨会也是业内人士关注的焦点，聚焦整个行业的发展，是科学技术和行业技术相互传递的理想平台。

analytica China, the analytica China Conference and the exhibition portfolio for analysis, laboratory technology, diagnostics and biotechnology, address one of the industry's most important growth markets in Asia, i.e. China. analytica China, since its debut in 2002, analytica China has become the biggest trade fair in China even in Asia. analytica China, the current technical conferences are the focus of industry players as well.

## 2023年展商感言 / Exhibitors' comments

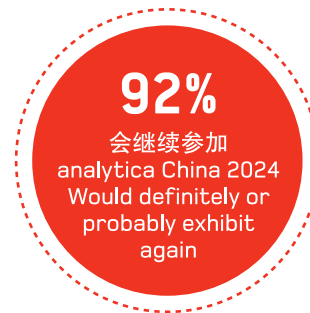

我们公司是第十次参加展会。慕尼黑上海分析生化展有很多优势，第一是影响很大；第二是办展时间久，有历史沉淀；第三是客户群体庞大且非常专业。今年印象最深的是慕尼黑上海分析生化展、慕尼黑上海电子展和慕尼黑上海光博会一起同期举行，我们在展会里可以接触到其他的应用领域，这大大降低了沟通成本。

It is the tenth time we participated in the exhibition. analytica China has many advantages: firstly, it is very influential; Secondly, it has a long history and a long-standing position in the industry; Thirdly, it has a large number of professional customers. What impresses me the most this year is the co-location of analytica China, electronica China and LASER World of PHOTONICA CHINA. Through them, we can get to know new application fields, which greatly reduces our cost in communication.

我们从2010年开始参与慕尼黑上海分析生化展，此次已是第七届。这个平台给我印象最深的是举办得非常专业化，具有科学性、系统性，无论是会前准备还是会后反馈以及客户调研工作都组织得很好。这是我们首次在国家会展中心参与这个展会，我感觉空间更大了，带来更为宽阔的感觉，期待下届展会能在保持良好组织工作的基础上，在专业分论坛及展会整体规划上取得更大突破。

We have been participating in analytica China since 2010, and this is the seventh time. What impressed me the most about the show is that it is very professional. The whole organization plan is well thought and effectively implemented. It has done a great work in either the preparation before opening, the feedback after the show, or in the customer research. This is the first time the exhibition is held in the National Exhibition and Convention Center, and I can see that the hall is larger and we are more at ease with the increased space. I expect that, with its good organizational work, the next exhibition will make greater breakthroughs in professional forums and the overall exhibition planning.

慕尼黑上海分析生化展，是一个行业内的盛会。在这里可以向我们的客户，更好地展示我们的新技术、新产品、新理念。我们还可以见到很多行业的专家和客户，与同行进入深入的交流，所以我认为这是一个非常好的行业交流的平台。

analytica China is an important event in the industry. Through the exhibition, we can better present our new technologies, new products and new ideas to the customers. We can also meet experts and customers from other industries, and have in-depth exchanges with our peers, so I think analytica China is a very good place for industry exchanges.

我们是慕尼黑上海分析生化展的资深客户，基本上每届都会参加。本次展会的氛围非常好，参展观众数量很多，展会规模很大。本次慕尼黑上海分析生化展从上海新国际博览中心调整到国家会展中心，硬件和软件都进行全面升级，各方面服务都更完善，让我们能够更好地展示我们全新的技术、产品和设备。

We are loyal customer of analytica China and have participated in almost every edition. The atmosphere this year is great. There are a lot of visitors, and the exhibition is very big. Moving from the Shanghai New International Expo Center to the National Convention and Exhibition Center, analytica China has been fully upgraded in both hardware and software. Its services have been improved in all aspects, and we can better display our new technology, products and equipment.

杨佳霖, 德国耶拿分析仪器有限公司, 市场总监  
Jialin Yang, Marketing Director, Analytik-jena GmbH

我和慕尼黑上海分析生化展有很深的渊源，我之前参加过analytica越南和analytica德国，效果都非常好。第一次参加慕尼黑上海分析生化展的时候，就发现现场的国外展商数量非常多，并且很多展商已经把每两年参加慕尼黑上海分析生化展作为一种传统。

I have a long history with analytica China, because I have participated in analytica and analytica Vietnam before, and the results were both very good. When I participated in analytica China for the first time, I found that there were a lot of international exhibitors in the halls, and many exhibitors had made it a tradition to participate in analytica China every two years.

在分析测试领域，慕尼黑上海分析生化展规模非常大，展会观众的质量和数量很高。这次展会是我们公司疫情之后参加的第一个大型综合性博览会，过去三年也很少看到有这么多的展商和观众济济一堂。我们希望通过慕尼黑上海分析生化展，把我们的新产品更好地推广给我们客户，让每个企业都能够为分析仪器行业的发展做出各自的贡献。

In the analysis and testing industry in China, analytica China is a very big exhibition with a lot of high-quality professional visitors. It is the first large-scale exhibition we participate in after the epidemic, and we have rarely seen so many exhibitors and visitors in the past three years. We hope that through this exhibition, we can promote our new products to the customers, so that we can each make our own contribution to the development of the analytical instrument industry.

My main purpose of attending analytica China is to see the cutting-edge and mainstream analytical instruments and equipment. The exhibition is very impressive with over 1,200 exhibitors and an upgraded exhibit profile and display measures. It represents the technological innovation of China. As for analytica China 2024, I expect to see more exhibitors, both from China and abroad.

今年是我首次参与慕尼黑上海分析生化展。本届展会规模庞大、布局清晰，展示了不同类型的仪器厂家及产品，便于参展商交流学习。实验室自动化与数字化展区主题新颖，使我对实验室未来走向及制药企业发展有了更清晰的目标及规划。我参与了两场论坛活动，老师的讲解很有针对性，对实验室规划及后续发展具指导意义！

This is the first time I participate in analytica China. The exhibition is very large. It's also well designed in the layout, displaying all kinds of instruments, manufacturers and products. So it is convenient for the exhibitors to communicate and learn from the other participants. The Laboratory Automation and Digitalization Area is very innovative, through which I have built a clearer image about the future goals and approaches of the laboratory and pharmaceutical industries. I participated in two forums, and the lectures were very helpful for our laboratory planning and future development!
